WORK EXPERIENCE

Docccita | bhubaneswar odisha india

co-founder

Feb.2020 - Present

1.so I am the co-founder of startup ,and during the journey of thinking about and idea to converting as real life product I had gone through many experience ,starting from conquering the fear to ready for pitching it.

2. there are many experience like starting from learning and researching about the market,understands the real meaning of startup and its importance then created then found the idea and furnish it into good revenue generating model,then building team to develop the product and managing those all operation to sustain the startup,and etc son spending time on thinking and learning abut how to manage and scale our startup.

3.taking about experience of technical background I had done the some projects on web technology,but the most importantly and frankly I say that I don't have such experience of self working on real life software project or normal project but as a co-founder of tech startup I know exactly what is need to make or work real life product in the industry and will definitely going to build self project using all my technical and entrepreneurship skills
